

HASHINTHA CHANUKA

Intern Software Engineer

✉ hashinhachanuka01@gmail.com ☎ +94 76 373 5286

📍 Kurunegala, Sri Lanka 🌐 HashinthaChanuka 🌐 Hashintha Chanuka

Profile

Passionate **software engineering student** skilled in frontend, backend, and full-stack development. Experienced with **MERN, Spring Boot, Laravel**, and modern UI tools. A **quick and self-learner** who takes responsibility and delivers **scalable, user-friendly applications** that make an impact.

Education

Higher National Diploma in Software Engineering	03/2024 – 07/2025
National Institute of Business Management	GPA: 3.88 / 4 Kurunegala

Technical Skills

Programming Languages: JavaScript, Java, Kotlin, PHP, SQL

Frontend: HTML, CSS, JavaScript, React.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, Spring Boot, Laravel

Full-Stack Technologies: MERN Stack, Spring Boot + React, Laravel

Databases: MySQL, MongoDB, PostgreSQL, Firestore

Tools & Utilities: Postman, Git

Projects

- GOODLOOK - Individual Project**
- **Description:** Developed a full-featured e-commerce clothing web application with authentication, role-based access control, and secure payment integration.
 - **Technologies:** React, Node.js, Express.js, MongoDB, Tailwind CSS, Stripe
 - **Role:** Full-stack developer handling frontend, backend, and UI/UX design.
- MindUp - Team Project**
- **Description:** Built an e-learning platform where users can both learn and teach, featuring course publishing, stress prediction using ML, and an integrated stress-relief game.
 - **Technologies:** React, Node.js, Express.js, MongoDB, Tailwind CSS, Stripe, Machine learning
 - **Role:** Backend developer focused on the admin dashboard, course creation, and a custom video player.
- Cricket Booking Application - Team Project**
- **Description:** Implemented a cricket stadium booking system supporting outdoor/indoor grounds and net sessions, managed with Agile methodology.
 - **Technologies:** React, Springboot, REST APIs
 - **Role:** Full-stack developer responsible for both frontend and backend API development.

Paragon Motors - Individual Project

- **Description:** Created a web application for a spare parts shop, enabling customers to order parts with cart functionality, while admins manage products and orders.
- **Technologies:** HTML, CSS, Javascript, PHP
- **Role:** Full-stack developer covering both frontend and backend core features.

Vox News - Team Project

- **Description:** Designed and developed a mobile news application where reporters submit news with images, and admins review, approve, or reject submissions.
- **Technologies:** Kotlin, Firebase, Cloudinary
- **Role:** Full-stack developer, with key contributions to the admin dashboard and authentication system.

Income_Expense Application - Individual Project

- **Description:** Built an income and expense tracking application with monthly financial visualization using interactive charts.
- **Technologies:** Laravel, Bootstrap, Chart.js
- **Role:** Full-stack developer responsible for complete application development, including backend logic and frontend UI/UX.

Certifications

Full Stack Development

University of Moratuwa , Sri Lanka
07/2025 - Present

Carrer Essentials in Software Development

Microsoft & LinkedIn
07/2025 - 08/2025

Extracurricular Activities

Active Member of NIBM computing society

08/2024 - Present

Active Member of NIBM IEEE branch

03/2025 - Present

Soft Skills

- | | |
|-------------------------|----------------------------|
| • Leadership | • Critical Thinking |
| • Time Management | • Adaptability |
| • Continuous Learning | • Teamwork & Collaboration |
| • Self-Learning Ability | • Effective communication |
